

It happened in 2013

Journeys

One week in Tuscany in April and one week in Austria in May gave us wonderful views, lots of exercise and great food.

We also visited the Danish island Bornholm and four other islands, as well as hiked in the woods in our county.

Work

This year we wanted a new garden house. So we tore the old one down, dug out an awful lot of soil, transported gravel and laid out new stone slabs. And on September 28th we could finally celebrate.

You've got to work some, even if you're retired.

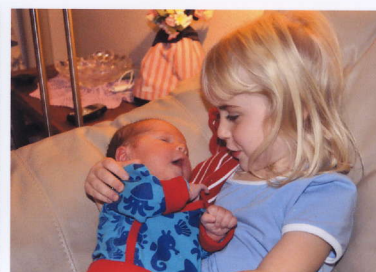

Music

Lots of great music this year in concert halls as well as in jazzclubs and festivals. George "Jojje" Wadenius (Blood, Sweat & Tears; Saturday Night Live band etc) played powerful as well as moving at our local jazz club, while The Avett Brothers raised the temperature at the city festival in Malmö.

Family

On a sunny but cold day in February we took grandchildren Axel and Sophia for picnic lunch in the woods, and in November Nellie's brother finally arrived.

*

But that was the year of 2013. Now we look forward and wish you all the best for Christmas and 2014!
